

Strategic Planning

Policy #	BRD-02	Date Created	February 1993
Authority	BOARD	Date of Last Review	November 2018

POLICY

The Board of Directors will ensure that a strategic plan is maintained that outlines long term strategic directions and objectives.

PROCEDURE

Under the Board's leadership, Country Roads Community Health Centre will engage in a planning process that will maintain a current strategic plan that articulates mission, values, vision, directions and goals. The strategic planning process will be implemented on a regular basis, at least once every three years.

Annually, The Executive Director will develop an operational plan derived from the strategic plan and consistent with the overall mission and goals of the Centre. This plan will detail how the Ends/Strategic Directions will be met. The Executive Director will report progress in meeting Ends/Strategic Directions and the operating plan goals, periodically to the board.
